IT programming school

opened to all

/who we are and what we do

42 Prague is a non-profit organization providing free IT education.

We provide cutting-edge programming education regardless of previous experience, age or gender.

We offer an innovative and flexible educational approach without teachers. Our campus is open 24/7.

We focus on the employability of our students. "Peer-to-Peer Learning" promotes the development of soft skills (critical thinking, communication...)

We are part of the international 42 Network. The first campus was established in 2013. It is now more than 21,000 students in 56 campuses.

/why invest in 42 Prague

more about 42
Prague
